

## ***Race-developed, but beginner-friendly motocross.***

With a range of race-developed features, including a disc front brake, tough lightweight bodywork and long-travel front and rear suspension, the TT-R125LW and the electric start TT-R125LW/E are the next step up from our mid-sized TT-R110E.

For impressive and powerful performance that younger riders will enjoy, the 125 cc air-cooled, 4-stroke single-cylinder engine is rugged and easy to maintain.

With 180 mm suspension travel at the front and 168 mm at the rear, the TT-R125LW/E can take on tough terrain, and like all the TT-R models, from 50cc to 125cc, Yamaha quality and reliability come as standard.

- ▶ Top-of-the-range 125cc 4-stroke off-road fun bike
- ▶ Perfect for teenagers looking for off-road fun
- ▶ Manual 5-speed gearbox
- ▶ Stilski dirkaško modri motokrosistični oklepi
- ▶ Electric start on the TT-R125LW/E
- ▶ Dolgo prednje in zadnje vzmetenje

***Yamaha junior bikes:  
start the way you  
mean to continue***

Poglejte nasmeh na obrazih otrok, ko stopijo z njihovega TT-R otroškega motorja in vedeli boste, da ste se pravilno odločili, ko ste kupili Yamaho.

Dandanašnji otroci so vse prevečkrat obtoženi, da preživijo preveč časa z igranjem računalniških iger, ko pa bodo enkrat izkusili vožnjo z Yamahinim terenskim motorjem, se bodo kaj kmalu zavedli, da je življenje več kot ždenje za igralno konzolo. Naša TT-R ponudba zajema 5-stopenjski 125ccm model, ter modela 110 in 50 z avtomatsko sklopko. Vsak izmed njih je ustvarjen za ure in ure družinske zabave.

Vsak motor je visoko kvalitetno izdelan, zanesljiv in trpežen, kar postavlja Yamaho za enega od vodilnih imen v motociklizmu.

**125 cc 4-stroke engine with 5-speed gearbox**

Driven by a 125 cc 4-stroke engine, the TT-R125LW/E models deliver plenty of smooth power for spirited off-road riding. Being air-cooled, this punchy little engine is relatively simple to maintain, and with a 5-speed gearbox and manual clutch, both models prepare the rider for the day when they move up to a full-sized motorcycle.

**Udobno prednje in zadnje vzmetenje z dolgim hodom**

Check out the compact steel frame and rugged suspension systems and you can see that this is a seriously capable off-road motorcycle. The sturdy front forks offer an impressive 180 mm of wheel travel, while the link-type rear suspension gives 168 mm of movement, allowing the TT-R125LW/E to handle some seriously tough terrain.

**Disc front brake and rear drum**

To handle the TT-R125LW/E's perky performance, the bike has an efficient 220 mm diameter front disc brake that allows the rider to reduce speed with minimum effort. A 110 mm drum brake delivers smooth stopping power at the rear end, and for good traction the TT-R125LW/E runs on a chunky, 90-section rear tyre.

**Light and tough YZ-inspired racing-blue bodywork**

The stunning bodywork on the TT-R125LW/E was inspired by our MXGP-winning YZ bikes. Made from specially-developed polypropylene that combines low weight with high strength, the fenders, tank panels and side panels are built to handle some tough treatment. Finished in racing blue, the TT-R125LW/E has a genuine race bike image.

**Kolesa z velikim premerom**

To complement the rugged chassis and long-travel suspension systems, the TT-R125LW/E models are equipped with a 483 mm (19-inch) diameter front wheel and a 406 mm (16-inch) diameter rear wheel. Their large diameter gives greater ground clearance, and enables the TT-R125LW/E to handle uneven off-road surfaces for a more enjoyable ride.

**Rider-friendly performance**

The TT-R125LW/E models offer a combination of winning motocross styling and rider-friendly performance, making them ideally suited to younger riders who want to gain valuable off-road experience. With a 5-speed gearbox, large-diameter wheels and YZ-type bodywork, the TT-R125LW and electric-start TT-R125LW/E deliver a real 'big-bike' experience.

<i>Agregat</i>		<i>TT-R125LW/E</i>
Tip agregata	Eno valjni, SOHC, 2-ventilski	
Prostornina	124ccm	
Vrtina x gib	54,0 mm x 54,0 mm	
Kompresijsko razmerje	10,0 : 1	
Maksimalna moč	-	
Maksimalen navor	-	
Sistem podmazovanja	Moker karter	
Tip sklopke	Mokra, več-ploščna	
Uplinjač	Mikuni VM16/1	
Sistem vžiga	CDI	
Zagon	Nožni	
Prenos	Konstantni, 5-prestav	
Končni prenos	Veriga	

<i>Šasija</i>		<i>TT-R125LW/E</i>
Okvir	Diamant	
Hod prednjega vzmetenja	180 mm	
Kot vilice	28°	
Predtek	107 mm	
Sistem prednjega vzmetenja	Teleskopske vilice	
Sistem zadnjega vzmetenja	Nihajna roka, (link povezava)	
Hod zadnjega vzmetenja	110 mm	
Prednja zavora	Hidravlični disk, Ø 220 mm	
Zadnja zavora	bobenj mm	
Prednja pnevmatika	70/100-19 42M	
Zadnja pnevmatika	90/100-16 52M	

<i>Dimenzije</i>		<i>TT-R125LW/E</i>
Skupna dolžina	1.885 mm	
Skupna širina	795 mm	
Skupna višina	1.085 mm	
Višina sedeža	805 mm	
Medosna razdalja	1.270 mm	
Najmanjša oddaljenost od tal	295 mm	
Teža (z vsemi polnimi rezervoarji)	90 kg	
Prostornina rezervoarja za gorivo	6,0 L	
Prostornina rezervoarja za olje	1,2 L
